

Whales

1. The biggest whales are Blue Whales.

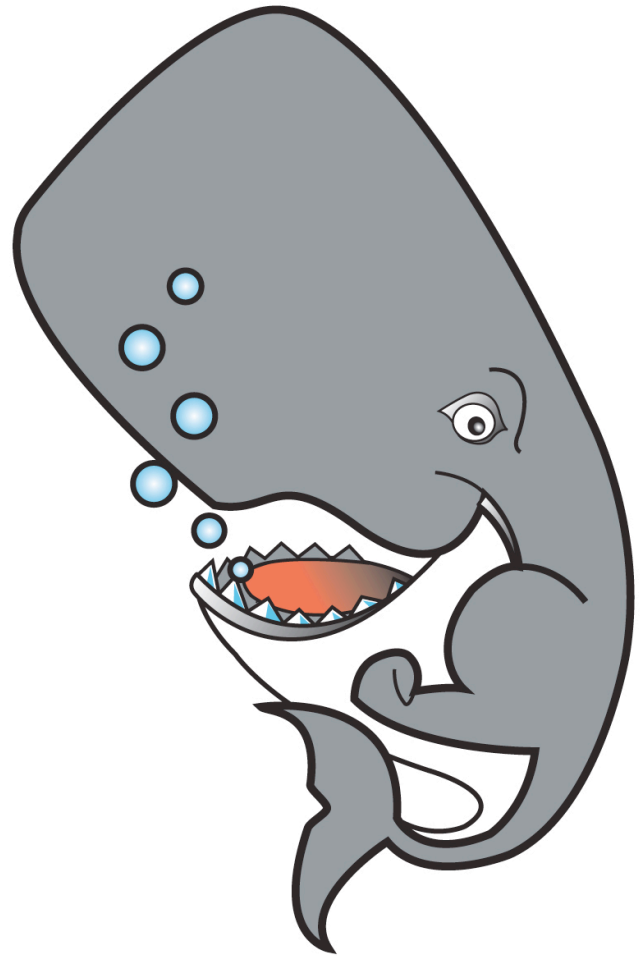

2. Whales are large, magnificent, intelligent, aquatic mammals.

3. Whales have sleek, streamlined bodies that move easily through the water.

4. Whales have hair but, almost none as adults.

5. The smallest whale is the dwarf sperm whale, which are only 8.5 ft. when they are adults.

6. Killer Whales and Shortfin Pilot whales are the fastest, swimming up to 30 miles per hour.
